PMI-RMP Exam Prep Classroom Course

Certificate: PMI-RMP	**Accreditor:** PMI
Duration: 30 hours	**Language:** English
Course Delivery: Classroom/Virtual	**Credits:** 30 PDUs

Course Description:

PMI's Risk Management Professional (PMI-RMP®) credential is a response to the increasing demand for specialized expertise managing complex projects. Globally recognized, the PMI-RMP® credential demonstrates that you have the experience, education, and competency to lead and direct risk management activities within the project successfully.

The ITpreneurs 30-hour, classroom PMI-RMP® Exam Preparation course provides a high-quality training program that prepares candidates to both passes the PMI-RMP® exam, as well as teaches how to apply risk management in real life.

This classroom course is aimed at people who work, or would like to work as a project risk manager on a daily basis and would like to achieve the PMI-RMP® Certification. Specifically, this course is for project managers who want to master the Risk Management framework within the Project Management Body Of Knowledge (PMBOK®). Mastering the course will enable learners to apply risk management processes, tools & techniques and practices to daily life, work and most importantly when managing projects.

At the end of this course, you will be able to take the exam and at the same time know how to apply your risk management knowledge in practice in the position of a project risk management professional.

Audience:
- Project Managers
- Project Team Members, and Control Officers
- Project Finance Managers & Controllers
- Business & System Analysts
- Consultants
- Enterprise Risk Managers

Learning Objectives:
- Individuals certified at this level will have demonstrated the following::
- The skills and knowledge of project risk management based on the PMBOK® Guide and global references
- Apply risk management tools & techniques in practice
- Understand the risk management framework and risk life cycle; share a common lexicon of risk management terms and principles
- Understand the risk concepts of qualitative and quantitative risk tools & techniques along with other factors such as prioritization
- Be fully prepared to take and pass the PMI-RMP® exam.

Prerequisites:

There are no formal prerequisites for participating in the PMI-RMP® Exam Preparation course. However there are specific prerequisites to take the PMI-RMP® exam.

Eligibility requirements for taking the exam is based on the following criteria:

Education	Project Risk Management Education	Project Risk Management Experience	OverallExperience
Four-year bachelor's or global equivalent degree	30 Contact hours of formal education in the specialized area of project risk management	Minimum 3,000 hours spent in the professional project risk management	Five consecutive years
OR			
Secondary high school or global equivalent diploma	40 Contact hours of formal education in the specialized area of project risk management	Minimum 4,500 hours spent in the professional project risk management	Five consecutive years

This course provides 30 contact hours for the exam.

All project risk management experience must have been accrued within the last five consecutive years prior to the application.

This is an overview of the requirements. For complete details regarding the PMI-RMP eligibility requirements, please view the PMI-RMP Handbook for further details.

Course Materials:

Participants will receive the following:
- A participant textbook with reference materials, and an exam preparation guide
- A workbook that contains all the exercises and includes answers in the appendix

- A reference book with glossary and definitions
- The cheat sheet that provides a summary of the related formulas
- Risk templates that provide samples for the risk activities

PMI-RMP Examination:
- The exam is the computer-based and closed-book format. Participants are not allowed to bring anything or anyone into the testing area or to the desk where you take the exam.
- The exam consists of 170 multiple-choice questions that include definitions, essay-type, and scenario-based questions.
- A pass / fail result score is generated based on your overall performance on the examination.
- The exam lasts 3.5 hours
- Addition information to prepare you for the exam can be found at the PMI-RMP exam guidance page

Pretest questions do not affect the score and are used in examinations as an effective and legitimate way to test the validity of future examination questions.
